*Orange
County
Nurseries...*

..RICHMAN & MILLS..

Telephone
....Main 155..

FULLERTON, * * CALIFORNIA

* * * NOTE * * *

While we exercise the greatest care to have Trees and Plants true to label, and hold ourselves prepared, on proper proof, to replace any that may prove otherwise, we do not give a warrant, expressed or implied, and in case of error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than was paid for them.

PRICE LIST

...OF THE...

Orange County Nurseries

FULLERTON, CALIFORNIA

TERMS AND CONDITIONS

First.—Parties unknown to us must accompany their orders with cash or satisfactory reference.

Second.—Special prices will be given on large specified orders.

Third.—We pack in the best possible manner, either by covering with tules or in boxes, thus making a saving of one-third in freight charges. A nominal charge, to cover actual cost of packing, will be made.

Fourth.—REMITTANCES. Remittances should be sent by postoffice order, express money order, or bank draft.

Fifth.—All accounts must be settled within 30 days.

Sixth.—In ordering, state whether substitution will be allowed or not. It frequently happens in the latter part of the season, that we are out of certain varieties. If not specially requested not to substitute, we reserve the privilege of doing so, when it can be done without disadvantage to the purchaser. In fact, purchasers of stock for a home orchard or home grounds, if not specially conversant with varieties, will do well to leave the entire selection to us, as we will send only such varieties as are suited to the locality.

Seventh.—MAIL ORDERS. We make mail orders a specialty in plants. Cut flowers and all kind of floral work by express. These orders must be accompanied by the cash. We guarantee satisfaction in all our floral work.

Eighth.—We all make mistakes. We will cheerfully rectify any that are brought to our notice if complaint is promptly made.

Respectfully,

RICHMAN & MILLS.

INSTRUCTIONS TO PLANTERS

Order your trees early. Those who order first will be served first. If you delay your order until late in the season, you may not get what you want.

Deciduous trees should be planted as soon as possible after the leaves have fallen, and the ground can be gotten into good condition.

Open the bundle or box as soon as received, and "heel in" in good, moist soil.

In planting, be sure and dig holes deep enough and large enough to admit all of the roots without bending or crowding. Fill in around the roots with well pulverized surface soil, packing firmly, except on top.

If the condition of the soil is such as to require the use of water at the time of planting, if the ground cannot be irrigated, the water should be poured into the hole after it is partly filled with earth. Allow the water to soak away, and then fill in with loose earth without packing.

Those who desire further instruction in regard to planting and care of plants, we would recommend to purchase a copy of Prof. E. J. Wickson's book, "California Fruits and How to Grow Them."

How to Reach Our Nurseries.—Fullerton is on the Santa Fe Railroad. There are four passenger trains each day from the north via Los Angeles, and four from the south via Orange.

The office, retail yards and ornamental department are located on West Commonwealth Avenue, one-half mile west of the First National Bank.

Those contemplating making purchases will find it to their advantage to see our stock before buying.

Visitors are always welcome.

FRUIT DEPARTMENT

	EACH	Per 10..	Per 100...	Per 1000..
NOTE				
Our Stock of Fruit Trees is very fine, being well grown and clean stock. Three hundred or more trees of one variety go at 1000 rate; thirty or more at 100 rate; five or more at 10 rate; less than five of one variety at single rate.
